Our CSA has weekly shares from the 1st week of June through the end of October.

Large Share: Retail Value $532.00 pay by April 1st for a discounted price of $450.00 the price will be $475 if paid by June 4th. Small share is still a weekly pick up for a smaller family. Retail price $287.00 pay by April 1st for a discounted price of $250.00, the price will be $275.00, if you join by June 4th. The price will be prorated if you join during the season. Your shares will be in our “Kapnick Crates”; it is your responsibility to swap your crate out every week.

If you are unable to pick up your weekly share, 48hrs notice is required. If you let us know we will provide you extras in the future weeks to make up your missed week. Failing to notify us will forfeit your share that week. No cash refunds will be issued.

Growing fruits in Michigan can be challenging with current weather patterns. We reserve the right to substitute different fruits or add more vegetables if needed. We feel with our diverse fruit plantings that we will be able to provide a great selection all season long.

**HISTORY OF KAPNICK ORCHARDS**

Kapnick Orchards is a family farm operated in Britton Mi. 4 miles south of Tecumseh and 30 miles from Ann Arbor. Currently owned and operated by Bruce & Sharon Kapnick Shaffer & Scott Robertello. Kapnicks's was established by Robert & Gertrude Kapnick in the late 1930's. They started selling at the Ann Arbor Farmers Market at that time. Sharon's parents Charles & Janice Kapnick began farming in 1958 joining his parents. They opened up our current store in 1961. Today you will find our retail store, bakery, cider mill and donut operation under one roof, after a few additions. Bruce & Sharon's daughters Shelby & Haven (the 4th generation) help out in the store or markets when not in college. Scott's daughter Jennifer lives in Pennsylvania, is married with two children Zoe & Ty.

---

**OUR PEST MANAGEMENT PRACTICES**

We are not an organic farm but we are very conscious of our environment and our growing practices. We practice I.P.M. (Integrated Pest management) which means we do not spray on a once a week schedule. We only spray when there will be significant injury to our crops. We use computer programs from Michigan State to determine the best time to spray to control a large group of pests at once to limit our applications. We are licensed by the MDA.
